## Communication Technician

Spencer Municipal Utilities (SMU) is a successful municipally owned utility provider currently seeking a full-time **Communication Technician.** We are seeking a team player with experience serving in a customer-focused operation. SMU has proudly met the electric and water needs of local Spencer, Iowa residents since 1942. Telecommunication service offerings were added for the community in 1997.

The ideal candidate would be a self-motivated individual with excellent communication skills responsible for consulting and working with communication utility customers with the installation, repair and maintenance of communication services including internet, home networking, cable television and telephone services. Basic responsibilities include performing routine installations and re-connections of fiber services in residences and businesses; including installing fiber drop, ONT, data and phone outlets, set-top boxes, gateways, hooking up & programming customer TVs, routers, computers, phone systems and providing customer education. This position is non-exempt and will have on-call responsibilities.

Our Requirements:

- Must be 18 years of age and have a High School Diploma or GED.
- Experience or training with the basic knowledge of the methods and practices involved with installing Cable TV, High Speed Fiber Internet, and residential and business telephone services preferred.
- One (1) to three (3) years in a customer or member service position helpful
- Required to possess and maintain a valid Iowa driver's license and meet SMU insurability requirements

**To apply** candidates must complete an SMU application. Applications can be found on our website at www.smunet.net (click on careers in the 'About' tab) or applicants may complete an online application utilizing SMU's computer by appointment located in our lobby during regular business hours at 520 2nd Avenue East, Suite 1, Spencer, IA. Please keep in mind that submission of a resume in lieu of work history on your application or answering the supplemental questions is not sufficient.

*SMU is an equal opportunity employer, offers a comprehensive wage and benefit package that includes health/dental/vision/long term disability/group life insurance, IPERS, 457(b) retirement plan, clothing allowance along with paid time off for vacations and holidays. Pre-employment background check and post-offer drug screening is required. Applications accepted through 10/4/2024. This recruitment will be open until filled.*

## CATCH ALL THE ACTION

STREAM BASEBALL GAMES WITH MAJOR LEAGUE INTERNET

Speed matters in baseball—the speed from home plate to first base, the speed of a fastball pitched, and the speed with which a ball leaves the bat. If you're streaming games from home, the speed of your internet connection is also key. Too-slow internet results in buffering, which freezes the action and disrupts the fun.

To score a home run with your family and friends, sign up for super-fast internet from Spencer Municipal Utilities. It's a game-changer.

## How Wind Turbines Work

People have been utilizing wind power for centuries, first by using windmills to pump water and grind grain. Today, the electricity generated from a single wind turbine can power hundreds of homes.

With continuous improvements in innovation and technology, wind turbines have been operating safely in Iowa for over four decades.

- 1 **Blades:** Generate lifts and spin the rotor when the wind is blowing
- 2 **Rotor:** Combination of the blades and hub
- 3 **Pitch System:** Angles the blades out of the wind to control rotor speed
- 4 **Main Bearing:** Supports the weight of the rotor and allows rotation
- 5 **Gearbox:** Converts rotation to the high speed that is required by the generator
- 6 **Generator:** Converts rotational energy into electricity
- 7 **Yaw Drive:** Controls the direction that the nacelle and rotor are facing
- 8 **Nacelle:** The rotor attaches to the nacelle, which houses the other inner components
